HOO is an acronym for Helping Our Own.

It's a chessed program that was started in Bais Rivkah of Crown Heights 8 years ago and BH it gets stronger and better each year.

The HOO volunteers go once a week to help out busy families. In addition, HOO works in conjunction with Bikkur Cholim and Shifra and Pua organizations sending volunteers to families, as needed.

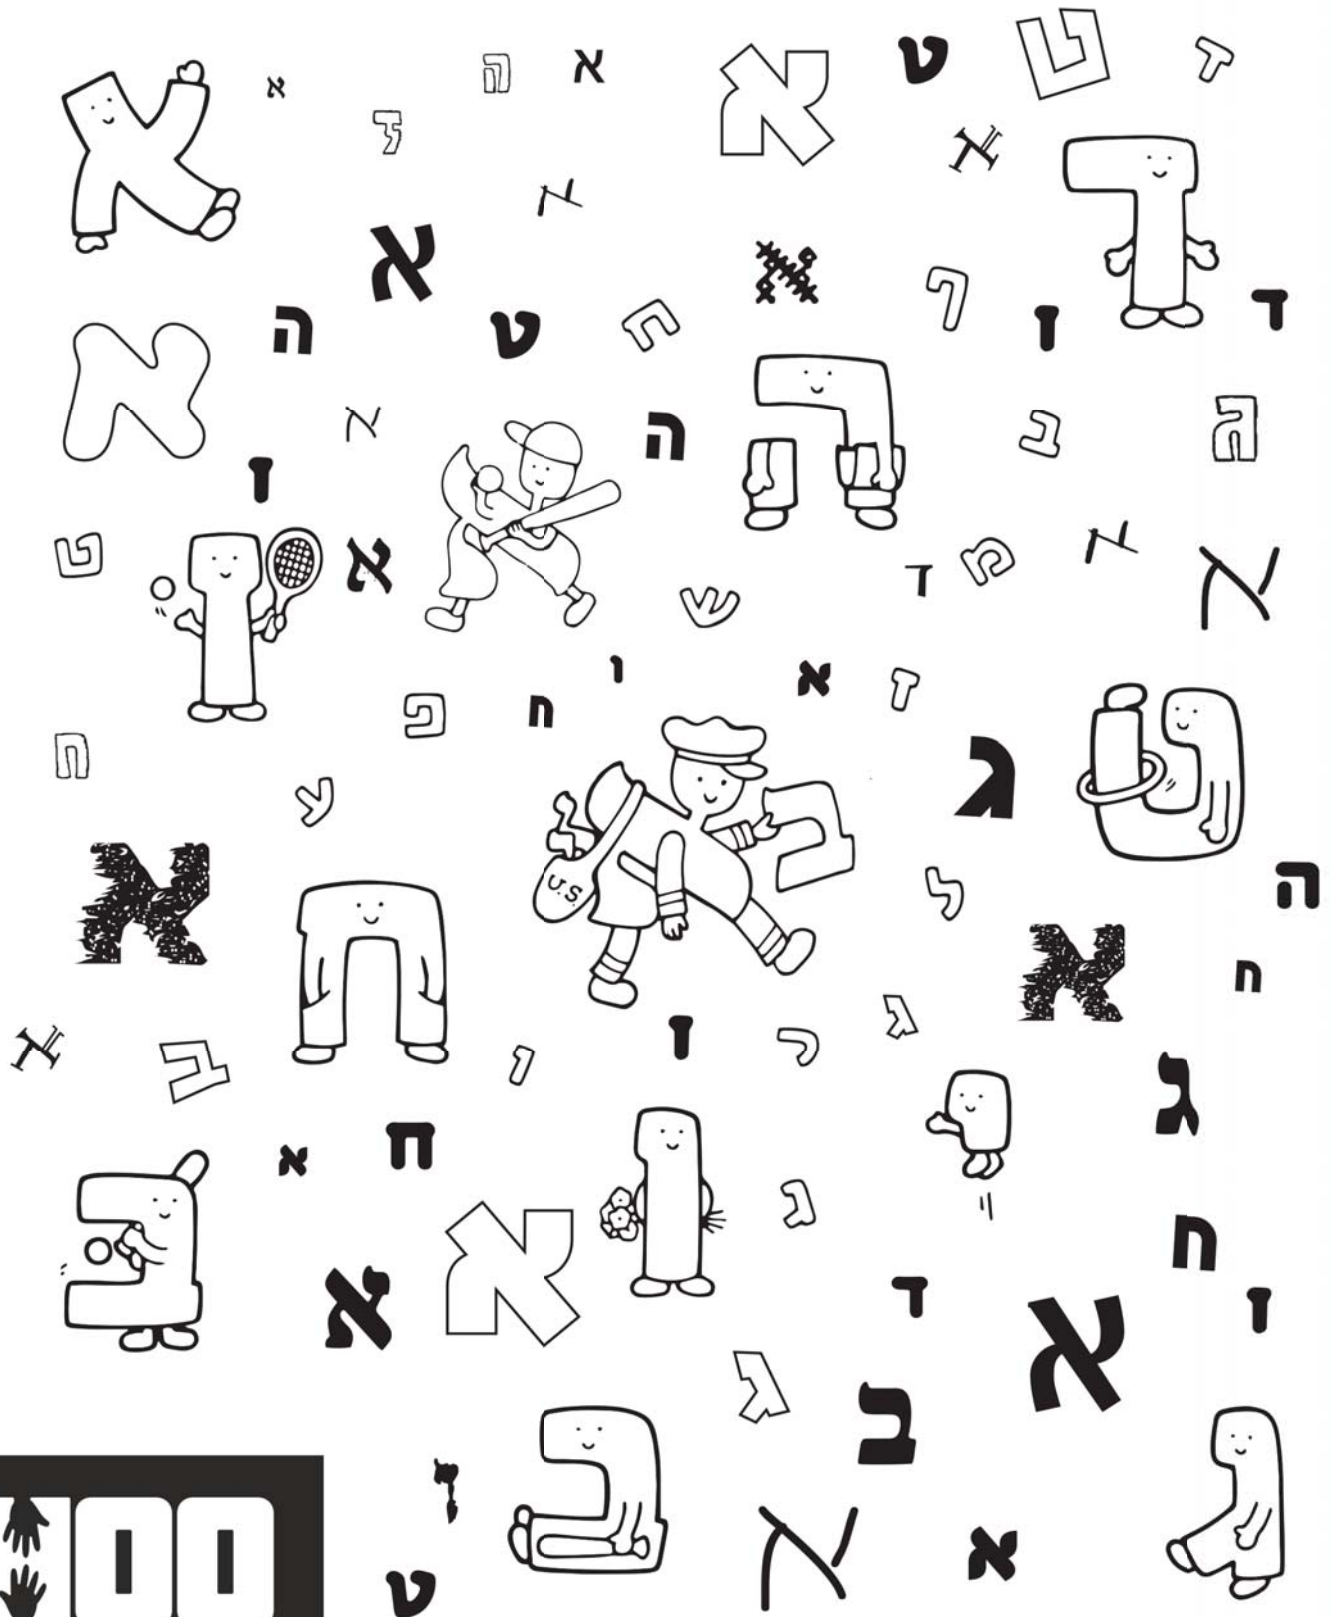

The HOO program also arranges: rewards, incentives, events, speakers, and training for the volunteers.

Enclosed are activity sheets that were created for the volunteers to give out to their HOO children.

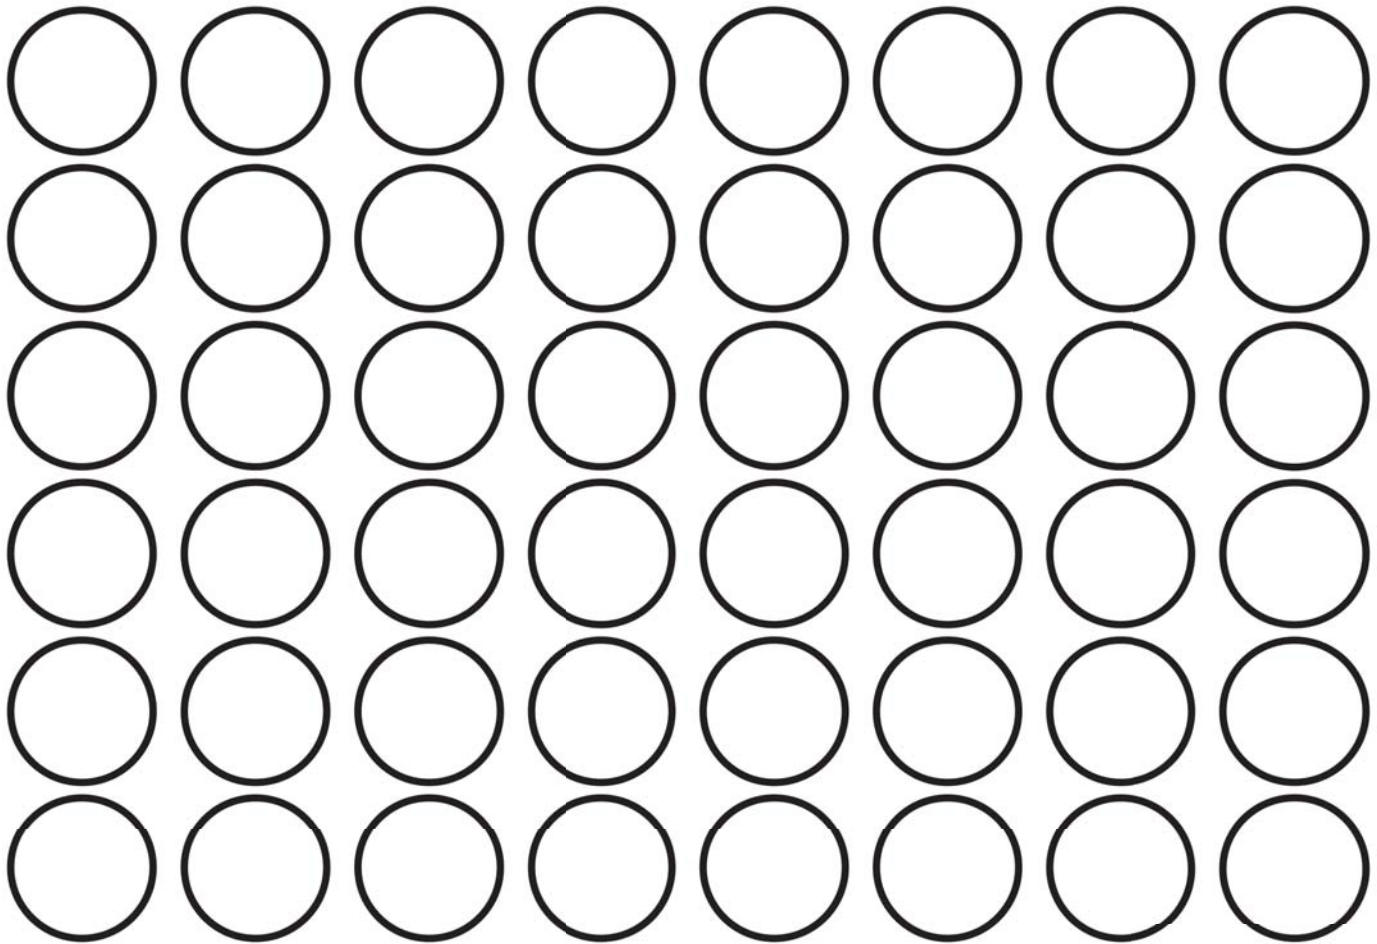

They were distributed a second time, when corona hit and we were all home.

We are proud to present some of those activity sheets in the form of a book! Sit back and watch as your children enjoy these activities!

Fun Recipes

Cooked Play Dough

Ingredients:

3 cups flour
 1 cup salt
 6 teaspoons cream of tartar
 3 cups water
 3 tablespoons vegetable oil
 Food coloring

Instructions:

Mix flour, salt and cream of tartar in a large saucepan. Blend water and oil together in a bowl. Add to the saucepan and cook over medium heat, stirring constantly until it thickens. Add several drops of food coloring until you get the right color. Cook for about five minutes. Take the dough out of the saucepan and put it on a cutting board or counter and knead for a few minutes. Add flour if it's too sticky.

Notes:

The play dough should last around three months if you keep it sealed in an airtight container or plastic ziploc bag. It's so smooth and fun to play with when it's still warm.

No Fuss Play Dough

Ingredients:

1 cup cold water
 1 cup salt
 2 teaspoons vegetable oil
 2 cups flour
 2 tablespoons cornstarch
 Food coloring

Directions:

In a large bowl, mix together water, salt, oil and a few drops of food coloring. Mix flour and cornstarch by adding $\frac{1}{2}$ cup flour at a time, stirring constantly (you may not need the full 2 cups of flour, so make sure to add the flour slowly and to keep stirring until it is the right consistency). With flour on your hand, knead for a few minutes.

Seal in an airtight container or ziploc bag.

How to Make a **BOUNCY BALL**

Supplies:

- Rubber bands
- Piece of tin foil approximately 18-24 inches long
- Colored rubber bands (optional)

Directions:

1. Scrunch the piece of tin foil, creating a tight ball.
2. Cover the tin foil with lots and lots of rubber bands. When you begin, you may have to wrap the rubber bands around the tin foil quite a few times to make it stay.

As the ball gets bigger, putting on the rubber bands should get easier and easier.

The more rubber bands you put, the bouncier and larger your ball will become.

3. (Optional) When your ball is as big as you would like, cover the outer layer with colored rubber bands. It will make it bright and colorful.

Tips:

1. Any size rubber band will work well. However, the thicker the rubber band, the easier it is to put on.
2. Try putting two or three rubber bands on at the same time.
